I'm so excited to share the news that I will be attending the **UC Berkeley School of Public Health** this upcoming fall to pursue an MPH in Health Policy and Management! This is a huge milestone in my professional career and one I've been dreaming of for multiple years.

I remember taking my first ever public health class while I was an undergrad at **University of California, Berkeley** and immediately realizing public health was one of the greatest forces for social impact and equity I'd ever encountered. I've been hooked ever since. It's surreal to find myself in this position 7 years later!
